"As the battle between my guild and the Vanguard begins, I want to give it a thumbs-up. A guild is based on a fortress, and sometimes it's not easy to run a guild battle. But this group of Elden Ring NPCs has become a guild just by themselves. Now, I want to compete with them and obtain a powerful stat." The battle became a battle of wits with blows and counter-blows... For example, one time I sent a mad bash at him, but he used a parry. I changed to an arrow and used four arrows. No matter how much

pressure he had, his defense couldn't cope with my attacks. I was even able to evade his counter-attacks. I was able to break his guard by making him think I had done something wrong in the process and then using my own turn to strike." "A whopping user level of around level 40.
